

§ 114.45

§ 114.45 Applications, extensions of time.

Extensions of time to commence or complete construction of a bridge or remove a bridge that has been replaced as an element of a permitted bridge project must be submitted to, and received by the District Commander at least 30 days before the existing permit expires to allow the permit to remain in effect until the final agency action is taken.

(33 U.S.C. 401, 491, 525, 535; 49 CFR 1.46(c) (8), (9), (10), (q))

[CGD 76-144, 42 FR 28882, June 6, 1977]

§ 114.50 Right of appeal.

A District Commander's decision to deny a bridge permit application or an application for drawbridge operation regulations may be appealed to the Commandant, U.S. Coast Guard. The appeal must be submitted in writing to the Administrator, Bridge Administration Program, (CG-5411), 2100 2nd St. SW., Stop 7581, Washington, DC 20593-7581, within 60 days of the District Commander's decision. The Commandant will take action on the appeal within 90 days of its receipt.

§ 115.01 Purpose.

This part states the requirements for applying for a permit for construction of or modification to bridges crossing the navigable waters of the United States. It also sets forth the procedures by which the application is processed by the Coast Guard.

[CGD 82-006, 47 FR 36641, Aug. 23, 1982]

§ 115.05 Necessary primary authority.

For bridges constructed by State or municipal agencies, the primary authority will be presumed without proof. If the law of the State requires a license for or approval of the bridge from a constituted State agency, a copy of such license or approval will be required and may be accepted as evidence of the primary authority. If there be no State regulation of bridges in navigable waters, the necessary primary authority may be that granted in the charter of a corporation, or the authority inherent in the ownership of the land on which the structure is placed. The applicant will in such cases be required to furnish an extract from the charter, or a statement of ownership. Especial care will be taken that Federal approval is not granted when there is doubt of the right of the builder to construct and utilize the bridge.

§ 115.10 Limiting date in permits.

(a) Specific time limitations are inserted in all permits for the commencement of construction and completion thereof. Normally three years for start of construction and two additional years for completion may be allowed.

(b) Specific time limitations are inserted in all permits for the removal of bridges being replaced in whole or in part by the newly permitted bridges where removal thereof is required as a condition of the permit. Normally 90 days for removal after completion of the new bridge or opening to land
